For information about my talk at the 2015 Georgetown University Italian Language and Culture Conference, see the website for my new book of Italian lessons, *Stellare: Learning Italian with Cultural Stars*, of which all profits are assigned to *EMERGENCY* USA to fund medical care for refugees in Sicily (below).

Incorporated in the book's Italian language activities are: a recipe by Lidia Bastianich, films by Fred Kuwornu and Nanni Moretti, photography by Gianni Berengo Gardin and Letizia Battaglia, images from the Italian collections of The National Gallery of Art in Washington, D.C., and a moving song by Gianmaria Testa.
